

# Sefufim Alvarez

## Full Stack Web Developer

Aspiring Full Stack Developer with a strong foundation in JavaScript, Node.js, Express.js, MySQL, MongoDB, React, Next.js, and TypeScript. Currently pursuing studies at Western Oregon University. Eager to apply my knowledge and practical skills in real-world projects.

## Projects

- Social Network API: Enables user profile creation, message posting, and friend connections.
  - Built with Node.js, Express, and MongoDB.
- Movie-Nest: Allows users to search for movies, view detailed information, and receive recommendations.
  - Built with JavaScript, Foundation framework, and The Movie Database (TMDB) API.
- Game-Yap: Provides game search, detailed game information, reviews, and user authentication.
  - Built with JavaScript, Tailwind, MYSQL, and RAWG API.
- Weather App: Allows users to check current weather and 5-day forecast.
  - Built with JavaScript and APIs.
